

Electrovert AQUASTORM

AQUASTORM MACHINE OVERVIEW COURSE Online Training Course

Course ID: SP159

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Electrovert Aquastorm cleaner. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will get an overview of the inline cleaning process and the Aquastorm cleaner. This includes differentiation between Aquastorm models, main parts of the cleaner, and materials involved in the process of cleaning.

Who Should Take this Course: Anyone who is interested in or intends to use an Aquastorm cleaner.

Prerequisites:

- EVT Aquastorm Safety Information & Guidelines (SP158).

Time Requirements: 25 minutes

Assessments: Quiz

Learning Objectives:

- Describe the key differences between Aquastorm in-line cleaner models.
- Explain the function of each module of the Aquastorm cleaner.
- Label the key parts of the standard Aquastorm machine.
- Identify standard and key optional features available on Aquastorm cleaners.
- Distinguish between the different spray nozzles available.
- Distinguish between the different dryer options available.
- Explain where wash and rinse solution come from and what happens to used solutions.
