

AQUASTORM PREVENTATIVE MAINTENANCE COURSE

Online Training Course

Course ID: SP161

Electrovert AQUASTORM

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Electrovert Aquastorm cleaner. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

This is a must-take course for any technician responsible for preventative maintenance on an Electrovert Aquastorm Cleaner. This course reviews daily, monthly, and annual maintenance. You will learn the steps required and the associated tools and materials.

Who Should Take the Course:

Anyone who will perform preventative maintenance on an Aquastorm Cleaner.

Prerequisites:

- Aquastorm Safety Information & Guidelines (SP158)
- Aquastorm Machine Overview (SP159)
- Aquastorm Basic Operations Course (SP160)

A basic understanding of cleaning and how to operate the Aquastorm oven is required to perform preventative maintenance on the machine.

Time Requirements: 45 min- 1 hour **Assessments:** Quiz **Language:** English

Learning Objectives:

- Explain the importance of inspection, cleaning, parts replacement, and lubrication.
- Know the difference between calendar maintenance and time-dependent maintenance.
- Know the importance of planning for preventative maintenance (tools, materials, and parts required).
- Know that when performing maintenance includes the task for that interval as well as more frequent intervals.
- Identify tools and equipment required for maintenance.
- Know what tasks are required for daily, monthly, and annual maintenance, and how to complete them.
