

MOMENTUM II COMMON OPTION SUPPORT COURSE Online Training Course

Course ID: SP116E

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers wanting to improve their knowledge and skills related to MPM Momentum equipment. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will learn how to provide replenishment support to several common options offered as add-ons to the Momentum II stencil printer. This includes Camalot inside, Cartridge and Jar Paste Dispensers, and the Paste Height Monitor.

Prerequisites:

- MOMII Safety Information & Guidelines (SP120E).
- Printing Basics (SP101E) OR a basic understanding of stencil printing.
- Machine Overview (SP105E) OR an understanding of the Momentum II stencil printer.
- Basic Operations (SP113E, SP114E, SP115E) OR an understanding of how to operate a Momentum II stencil printer.

Time Requirements: 45 minutes **Assessments:** Quiz and Simulation

Languages: English, Spanish

Learning Objectives:

- Recognize the process to replenish a Camalot inside dispenser in an example simulation.
- Select the correct procedure required to replenish a cartridge dispenser in an example simulation.
- Select the correct procedure to replenish a jar paste dispenser in an example simulation.
- Define the purpose of a paste height monitor.
- Identify the correct procedure to set up a paste height monitor in an example simulation.
