

MOMENTUM II MACHINE OVERVIEW COURSE Online Training Course

Course ID: SP105E

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their MPM Momentum equipment. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will get an overview of the Momentum II stencil printer. This includes differentiation of model types, key standard features, and options which can be purchased for the Momentum II.

Who Should Take this Course: Anyone who is interested in or intends to use a Momentum II stencil printer.

Prerequisites:

- MOMII Safety Information & Guidelines (SP120E).
- Printing Basics (SP101E) OR a basic understanding of stencil printing.

Time Requirements: 30-45 minutes

Assessments: Quiz

Learning Objectives:

- List the available Momentum II models and key areas of differentiation.
- Label the key parts of a standard Momentum II machine.
- Distinguish between the different board clamping systems.
- Explain the function of the automatic stencil position and adjustable stencil shelves.
- Recognize the difference between a single and triple track conveyor.
- Describe the features of the conveyor and board handling system.
- Identify some of the key optional features available on the Momentum II Machine.
