

CENTURION MACHINE OVERVIEW COURSE

Online Training Course

Course ID: SP132

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Vitronics Centurion equipment. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will get an overview of the Centurion reflow oven. This includes differentiation of model types, key standard features, and options which can be purchased for the Centurion oven.

Who Should Take this Course: Anyone who is interested in or intends to use a Centurion reflow oven.

Prerequisites:

- Centurion Safety Information & Guidelines (SP131)

Time Requirements: 20 minutes

Assessments: Quiz

Learning Objectives:

- Understand the main functions of a Centurion oven and the basics of the soldering process.
- Outline the main parts of a Centurion oven.
- Recall that Centurion ovens can be configured with various optional components which may not be covered in the ITW EAE training courses.
