

CENTURION RECIPE MANAGER COURSE Online Training Course

Course ID: SP137

ITW EAE Learning

Our eLearning courses are specifically designed to provide engaging and interactive learning opportunities for operators, technicians, engineers and/or managers to be introduced to or build upon the knowledge and skills needed to successfully operate, maintain, program, or troubleshoot their Vitronics Centurion equipment. Online courses are designed to cover beginning and intermediate competencies and should be mastered before considering more advanced, in person training. Courses require a reliable internet connection and can be viewed at your own pace on your phone, tablet, or pc laptop.

Course Overview:

In this module, you will learn about the functions of the recipe manager, how to set up a new recipe, and practice setting up a new recipe via simulation.

Who Should Take this Course: Anyone who is interested in or intends to use a Centurion reflow oven.

Prerequisites:

- Centurion Safety Information & Guidelines (SP131)
- Centurion Machine Overview (SP132)
- Centurion Basic Operations Course (SP133, SP134, SP135, SP136)

Or a basic understanding of reflow soldering and the basics of how to operate the Centurion oven are required prior to completing this module.

Time Requirements: 40 minutes

Assessments: Quiz and Simulation

Learning Objectives:

- Identify the command icons in the recipe manager
- Create and make changes to a machine recipe
- Navigate through the recipe manager tabs
